Summary

Flutter Developer with a passion for clean code and great design. I build smooth, cross-platform apps using Flutter, Firebase, and REST APIs — always focused on performance, UX, and scalability.

Experience

Flutter Developer <i>DragSense</i>	March 25 – Present <i>Islamabad</i>
Flutter Developer <i>Acceltor Ltd</i>	October 24 – February 25 <i>Islington, UK</i>
Flutter Intern <i>Bytewise Ltd</i>	June 24 – September 24 <i>Islamabad, Pakistan</i>

Skills

Programming Languages:	Dart, Python, JavaScript, HTML, CSS, C++, C#
Technologies:	Flutter, Firebase, Provider/Riverpod, SQLite, MySQL, Git/GitHub, FlutterFlow
Soft Skills:	Excellent communication, Strong Teamwork Abilities, Adaptability and Flexibility

Projects

<u>Oval Internal Communication Platform</u>	<i>Flutter, Firebase Cloud Messaging</i>
<ul style="list-style-type: none">Collaborated in development a secure cross-platform communication tool for a Japanese client for employee collaboration using Flutter, featuring company-authorized login system and optimized internal messaging capabilities.Implemented Firebase Cloud Messaging for real-time push notifications delivering announcements, team updates, and critical information even when app runs in background.	
<u>RFK Mobile App A Shoe Refreshing Service</u>	<i>Flutter, PHP, MySQL REST APIs</i>
<ul style="list-style-type: none">Designed and developed the Refresh Kicks mobile app from concept to deployment, featuring a customer-facing application with integrated Stripe payment processing and real-time service updates.Built a complementary admin application that empowered business owners with comprehensive order management, user administration, service configuration, and business analytics capabilities.	
<u>Cricklyzer A Cricket Enthusiast App</u>	<i>Flutter, REST APIs</i>
<ul style="list-style-type: none">Developed a manual ball speed measuring feature that enables users to determine ball velocity by inputting release point, impact point, and pitch dimensions, achieving 90% accuracy with proper parameter selection.Enhanced user experience by integrating live cricket scores and news APIs while implementing Firebase and local storage solutions for secure, personalized data management.	
<u>Rhythm Minimalistic Music Player App</u>	<i>Flutter, OnAudioQuery, Just Audio</i>
<ul style="list-style-type: none">Developed a sleek and lightweight music player app in Flutter with local audio file scanning and playlist management.Integrated OnAudioQuery for efficient media retrieval and Just Audio for smooth playback with background support.	

MyPlace | Personal Location Bookmarking App

Flutter, Google Maps API, SQLite

- Built a Flutter-based mobile app that lets users bookmark and manage favorite locations with Google Maps integration.
- Implemented real-time location tracking, map previews, and location search, with persistent offline access using SQLite.

DairyBook | Milk Sales Management App

Flutter, Hive

- Designed and developed a Flutter-based mobile application tailored for rural dairy vendors to efficiently manage daily milk sales and customer records.
- Implemented offline-first architecture using Hive for local data storage, enabling seamless usage in low-connectivity areas.

Education

Air University

Bachelor of Computer Science

Islamabad, Pakistan
